What is the NHS

The NHS stands for the National Health Service

Government-funded medical and health care services that everyone living in the UK can use

Visiting a doctor or a nurse

Getting help and treatment at a hospital if you are unwell or injured

Seeing a midwife if you are pregnant

Getting urgent help from ambulance services

These services are free

Any UK resident can, go and see a doctor who will offer diagnosis or treatment for an illness, you will not have to pay

Most of the money is collected through UK residents paying tax.
